

## AUTOMATIC PRESSURE BOOSTING SYSTEM

Controls Pump operation, automatically and without interruption, with constant pressure and delivery during supply from one or more distribution points. If there is no water at the suction point, it blocks the pump without using level probes or float switches.

### PUMP LIQUID

Clean, thin, non-aggressive, non-explosive, clear cold, fresh water without abrasives, solid particles or fibers.

### APPLICATIONS

Household and commercial water supply  
Fountains  
Heating and washing system  
Shower Panels

### FEATURES

Dry running protection with automatic reset  
Built in thermal Protection (in APC model)  
Easy to install and silent running  
Noiseless  
Designed for High start / stop per hour  
Low maintenance, extended pump life.
